

# Hands-On Training at Clemson

**Foundational Elements of Flexo Printing on Rotary Die Cutters**  
February 4-6, 2008  
Clemson, SC

***Training is on the Martin Flexo Rotary Die Cutter 3-Color NT***

After the course, you will:

- Realize an instantaneous leap in the skill levels of your new flexo rotary die cutter operators, press supervisors, production coordinators, and plant production employees
- Be able to immediately apply the knowledge and techniques back at the plant to improve the quality of printing
- And more

This course has been compressed to 3 days for less time away from the plant and cost reduced from 2007!

*ICPF Donor Registration Fee: \$1,250*

**Sign me up for Foundational Elements of Flexo Printing**

**Enhanced Graphics for Corrugated**  
April 14-16, 2008  
Clemson, SC  
Only offering!

***Training is on the Bobst 160 4-color press***

After the course, you will:

- Significantly improve flexo press operation and efficiency
- Understand the flexo printing process in both theory and practice and how it relates to high quality printing
- Learn how to set up the press
- Understand various theories on printing enhanced graphics
- And more

This course has been compressed to 3 days for less time away from the plant and cost reduced from 2007!

*ICPF Donor Registration Fee \$1,250*

**Sign me up for Enhanced Graphics for Corrugated**

**Advanced Flexography and Process Control for Corrugated**  
September 8-9, 2008  
Clemson, SC  
Only offering!

***Training is on the Bobst 160 4-color press***

After the course, you will:

- Master process color measurement and control for flexographic printing.
- Identify process capabilities
- Establish aim points and set tolerances for your printing environment
- Conduct image analysis for graphic specs and tone reproduction

This course has been compressed to 2 days for less time away from the plant and cost reduced from 2007!

*ICPF Donor Registration Fee: \$995*
